

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Differentially expressed host genes between AR0382/ AR0387 during in vitro biofilm growth (FDR <0.01, LFC $\geq |1.0|$)

Values represent log (base 2) fold change of AR0382/ AR0387.

File Name: Supplementary Data 2

Description: Differentially expressed host genes between AR0382/ AR0387 during in vivo biofilm growth (FDR <0.01, LFC $\geq |1.0|$)

Values represent log (base 2) fold change of AR0382/ AR0387.

File Name: Supplementary Data 3

Description: List of genes that are more highly expressed in AR382 under both in vitro and in vivo biofilm conditions (FDR <0.01, LFC $\geq |1.0|$)
